

SCHRC PAC Meeting Minutes

5/14/2024

Attendees:

- Amber Frazier
- Peter
- Eric
- Tricia

Question: I was a little off the loop in the conversation around the safe syringe access bill when it failed to be passed and I just didn't know if there was any conversation about like next session & organizing an effort.

Answer: It's awhile away, but we still need to be proactive, but yes, there hasn't really been much discussion around that. Marc did say he wanted to kind of take this in between time to organize more efforts and be prepared next year. So, do we want to keep the bill? Do we want to introduce a new bill? Do we want Senator Davis to sponsor? Or find a new sponsor?

Also, Marc mentioned on the website there's a survey, I'll post it to to the chat if anybody is interested in supporting .854 to show buy-in. It's just a one question survey, but I think the plan next month is to have more discussion around it.

Upcoming event in the community:

May 23rd event at the zoo in Columbia, SC

(ask Amber Frazier for more information).

*** Amber sent a follow-up email with the things covered in the meeting for those who attended. ***

Shorter meeting: 15 minutes
